[EXTERNAL EMAIL from anna.terteryan@kirkland.com]

Kyle and team,

As discussed on our meet and confer this morning, and as contemplated in the draft ESI protocol that the parties are negotiating, below is Lilly's disclosure of data sources, proposed custodians, and proposed search terms. Lilly's investigation of relevant electronic data sources is continuing, and Lilly reserves the right to amend or supplement the below disclosures should it learn of additional sources of information most likely to contain ESI relating to the subject matter of this litigation.

Sources. In addition to email, instant messaging, and local laptop custodial files of the custodians identified below, the following non-custodial sources are most likely to contain responsive information: shared folders/workspaces relevant to REZPEG maintained on Lilly's electronic systems.

Custodians. Lilly identifies the following persons whose files are most likely to contain ESI relating to the subject matter of this litigation.

Custodian	Role(s)
Ali Ashrafzadeh	Associate Vice President, Medical Immunology Research; JPT Member
Jeremy Huckstep	Director of Strategic Alliances; JPT Member
Paul Klekotka	Vice President, Clinical Research, Immunology; JPT Member
David Manner	Senior Research Advisor, Statistics
David Murray	Executive Director, Immunology New Product Planning
Ajay Nirula	Senior Vice President, Immunology Lilly Research Laboratories; JPT Member; JSC Member; IL-2 Conjugate Board Member

Lance Pfeifer	Associate Vice President, Immunology Project Management; JPT Member
Kathryn Ramseyer	Head of Global Brand Development, Immunology; JPT Member; JSC Member
Carsten Schmitz	Executive Medical Director, Early Clinical Development, Immunology

Search Terms. Lilly proposes applying the attached search terms to the custodial files of the above identified custodial and to non-custodial data sources, for the period from July 1, 2017 through August 7, 2023. Lilly reserves the right to amend these terms, including to narrow the applicable date range, to the extent Nektar contends a more limited date range is relevant to particular terms.

Sincerely,

Anna

Anna Terteryan
